This is the letter **VET**: בּ   (בֵּית)

It has a **b**ar on the **b**ottom, and a **b**ase that goes **b**eyond, just like the letter בּ, but it has a **V**acuum or a **V**oid in the **V**ery middle. It represents the number 2 (just like בּ).   It sounds like **V**.

The בּ (VET) is actually a בּ (BET) that comes at the end of a syllable or after a long vowel.

Practice reading the letter VET with all the vowels (notice that the largest letters are those from Genesis 1:1):

בְ   בֵ   בוּ   בָ   בוֹ   בְ   בִי   בֶ   בֵ   בַ   בָ   Vet>
